APPENDIX A.

To

T. ANANDA ROW, ESQ., B.A., C.I.E.,
Dewan of Mysore.

SIR,

Permit me, as the representative of the Kolar Gold Field Mining Board, to convey to you their respectful congratulations on your recovery from the illness with which you have recently been afflicted, and to express the very sincere hope that your health, which is so essential to the accomplishment of the duties attached to your exalted office, may long remain unimpaired.

The Mining Board are most grateful for the invaluable support which His Highness' Government has continued to extend to the Gold Mining Industry of Kolar, and for the privilege which has again been accorded to them of being represented at this Assembly.

I will now, Sir, with your kind permission, proceed to submit to your notice a few questions which the Mining Board deem it necessary to bring forward in the interests of the Gold Field and its community.

2. *Public health.*—We sincerely appreciate the help and co-operation of the Government Medical Staff in all matters concerning the public health and sanitation, and it affords us great pleasure to be able to testify to the cordial relations which exist between that Staff and the Officers of our own Medical Establishment. There are two or three points bearing on the question of health which we desire to refer to.

3. *Epidemic diseases.*—During the year just passed, plague has been epidemic on the Mines and the Sanitary Board area, and again the whole strain of the bacteriological work has fallen on the Mining Companies' Laboratory. The Government Medical Officer of Health has had to rely on the good will of the Companies' Staff for the bacteriological examination of all the rats found dead and trapped in the villages comprised in the Sanitary Board area, and for the diagnosis of many doubtful cases in the Plague Camp. In fact, the amount of work done for Government, together with the routine work of the Field, has seriously handicapped our resources. In this connection, we are gratified to note that Government has sanctioned a Bacteriological Laboratory for the Medical Officer of Health, the Kolar Gold Field Sanitary Board bearing the initial cost and recurring expenses.

4. *Government Hospitals and water-supply.*—The Board have, within the past few days, received a Notification that His Highness' Government has been pleased to direct that, as funds can be made available, the following works on the Gold Field shall be put in hand, *viz.*, a Maternity Hospital at Robertsonpet; the covering over of the water distribution tank at Champion Reef, and the addition of European and Anglo-Indian Wards to the Civil Hospital. Sir, we thank you very heartily for this gracious response to our appeals, and we can now only request most respectfully and earnestly that, in view of the importance and urgency of these works, the question of providing the necessary funds may receive your early attention.

5. *Mysore Mines Regulation.*—Under this heading we desire, firstly, to request that Government will be pleased to include under the definition "Mining Materials" copper wire, brass fittings and other manufactured parts of machinery, the value of which excites the cupidity of the lawless element abounding on and around the Mines.

Secondly, we beg to point out that the present method of evicting bad characters from the Mines by the service of "undesirable" notices, signed by the individual Mining Superintendents, does not work as satisfactorily as could be wished. A central organization alone can cope efficiently with the difficulties which constantly present themselves, and we respectfully suggest that the investiture of the

District Superintendent of Police with entire control of the working of this section of the Regulation will bring about the desired result.

6. *Augmentation of Police Force.*—We are pleased to learn that, in connection with representations previously made as to the need of more constables for the effective patrolling of the Field, especially between sunset and sunrise, proposals are now before His Highness' Government, and we earnestly hope that they will soon be sanctioned.

7. *Roads.*—Once more, Sir, we must inflict upon you this oft-recurring subject. Our roads are not a credit to so large and important a station as the Kolar Gold Field, and it may truthfully be stated that not for many years have they been in so bad a condition as they are at the present time. We should take it as no slight evidence of the regard of His Highness' Government for our comfort if more care were given to their maintenance. In this respect we beg to refer to the extension of mining enterprise in the Kolar District, and to bring to your notice the fact that the road leading from the "Big Tree" ghat to Manighatta *viâ* Bowringpet and Kolar Town, over which a considerable amount of traffic now passes, is much in need of attention.

8. *Attachments.*—In commenting on this matter at the last meeting of Representatives, you remarked, Sir, that it could be discussed at the ensuing sittings of the Assembly. We now venture to enquire if any decision has been arrived at. As previously mentioned, the operation of the Civil Procedure Code inflicts great hardship on unskilled labour, and we should be grateful if it could be found possible to amend Section 60 of the Act so as to afford the relief prayed for.

In conclusion, Sir, I thank you sincerely for the patient hearing you have so kindly accorded to our Address, and offer respectfully our congratulations to His Highness on the well-being which His people continue to enjoy under His Highness' benign rule and your most able administration.

HENRY M. A. COOKE.

II.

To

T. ANANDA ROW, ESQ., B.A, C.I.E.,

Dewan of Mysore.

SIR,

On behalf of the Planting Associations of Mysore, I have the honor to congratulate His Highness on the establishment of the Economic Conference, another proof of his liberality, and his confidence in his people, and trust that it may be the means of developing the resources of the State and improving its economic condition.

We desire also to congratulate Government on the success that has attended Dr. Coleman's efforts to combat the *Koleroga* of arecanut. It is difficult to establish confidence in a scientific treatment of this nature; but the results obtained by his practical work appear to be convincing the *Supari* cultivators of the efficacy of the treatment, and we trust that the heavy losses of the past will be mitigated in the future.

We desire to draw attention to the growing scarcity of labour in the State, and to the recruitment of coolies for other countries that has lately commenced. Mysore has ever been dependent on outside labour for the cultivation of her lands. On the South and East, Tamils, on the North, Mahrattas, on the West, Kanaras, have yearly come to her aid.

She has no surplus population for emigration if she is to develop her own resources. If this emigration were for the good of the people no check should be put upon it; but we think that coolies are enticed away from their homes by the false promises of unscrupulous recruiters, and we trust that steps may at least be taken to have all such agreements interpreted and registered before a Magistrate.

We desire to draw your attention to the enormous increase in the price of all manures, a fact that is pressing very hardly on all branches of agriculture. With regard to lime, Sir, you can assist the agriculturist by reverting to the old rates of seigniorage on firewood and charcoal and by classing lime as a manure at the toll-gates so that only half rates shall be charged.

The very serious decrease of population in all the malnad taluks, as revealed by the recent census, is, we are confident, engaging your attention. We attribute it to the spread of lantana and the reservation of the District Forest land, direct and indirect causes of decrease of grazing and tenant right; to the increase of sickness caused thereby; and to the destruction of crops due to the increase of pigs and other wild animals by the covert thus afforded them.

In conclusion we congratulate His Highness on the prosperity of His State under your administration, and particularly on the timely rains that have just fallen putting an end to the prevailing anxiety.

I remain, etc.,
H. PILKINGTON.

III.

To

T. ANANDA ROW, Esq., B.A., C.I.E.,

Dewan of Mysore and President of the Representative Assembly.

Sir,

I thank you for the kind welcome you have given us all, and beg leave to remark that it is amidst feelings of happiness that we meet here to-day when our anxieties regarding the apprehended famine have been to a certain extent, allayed by the good showers we have had throughout the Province.

2. The ancient ruling family of Mysore and its subjects are historically known to have ever been loyal to the British Throne. It was only a few years ago that Mysore, along with the rest of India, had had the proud privilege of welcoming in its midst His Most Gracious Majesty, King George V, as Prince of Wales. And shortly will India, along with Mysore, have again an opportunity to show its heartfelt gratitude and loyalty to the King-Emperor, when His Majesty will grace the Delhi Durbar with his august presence, an unprecedented event in the whole of the History of India.

3. Mysore is mainly an agricultural country, the income from land revenue alone being 1 crore and 2 lakhs of rupees. The subjects of His Highness' Government therefore humbly submit that the allotment of 7½ lakhs of rupees for irrigation—of which only Rs. 68,000 are spent for minor tanks—is wholly inadequate and bears no sort of fair proportion to the income derived from land revenue. When the income of the State was about a crore and 16 lakhs, the allotment for irrigation was about 12 lakhs. While the income of the State has nearly doubled itself, the allotment under the head of irrigation instead of doubling, has reduced itself to 7½ lakhs for 1910-11. It is therefore earnestly prayed that the allotment for irrigation may be largely increased.

4. The idea that the District Board of Kolar would undertake to have a light railway constructed from Kolar to Bowringpet is a commendable one and the scheme is the first of its kind in the State. It is earnestly hoped that other District Boards will follow the example, while wishing that the project may meet with every encouragement at the hands of the Government and the public for its final success.

5. Notwithstanding the fact that some provision had to be made in the budget to meet some special items of expenditure for 1911-12, the fact remains that it is absolutely necessary to reduce the expenditure. In this view, it is humbly submitted, that some departments may be abolished or clubbed together, to effect a general saving.

6. It is humbly prayed that the Government may be pleased to enquire into the causes which have resulted in the gradual diminution of the people in the malnad.

7. In conclusion, I beg, Sir, that you may be pleased to communicate these prayers and expressions of loyalty to our beloved Sovereign, His Highness the Maharaja.

I beg to remain,

Sir,

Your most obedient and humble servant,

A. RAMANNA,
Representative Member,
Yedatore Taluk.

T. ANANDA ROW, Esq., B.A., C.I.E.,
Dewan of Mysore.

Sir,

On behalf of the Central Mahomedan Association of Mysore and other associated bodies representing the Mussalman subjects of His Highness the Maharaja, it is my privilege to congratulate you on another year of successful administration, a year abounding in evidences of the deep solicitude and keen interest with which the Government of His Highness watches over the welfare of the people committed to its care.

Among the various beneficent schemes which have been initiated under your guidance during the last twelve-month, we attach special importance to the Economic Conference, having for its aim the awakening of the interest of the people at large in problems affecting their material and moral welfare. It is our firm belief, Sir, that this Conference will go a great way in facilitating the solution of many of those vital administrative problems engaging the minds of practical Statesmen in Mysore and British India. I may, however, submit that, as pioneers of some of the important industries in the Province, and as having no small concern with the economic development of the State, Mussalmans feel that their interests are not adequately safe-guarded, as none of their representatives have been appointed among the non-official members of the Conference, though we are thankful that a few competent members of the community have since been nominated as members of some of its sub-committees.

We are grateful to His Highness' Government for the due recognition of the claims of our community in the recent appointments of Revenue Probationers. The utter absence of Mussalmans in the higher grades of the Executive Service, now continued for many years, is a subject about which the Mussalman mind has long been exercised. My Association respectfully urges that the Government will be pleased to bestow its kind consideration upon this important matter. As regards minor appointments, we remember with gratitude the Circular issued by the Government so long ago as 1907, enjoining upon the District Officers the desirability of entertaining more Mussalmans in the Public Service. We are afraid, Sir, that due attention is not being paid to this Circular, as may be seen from the fact that though there are now more Mussalmans qualified for such posts than in former years, their number in the Public Service has not increased. We pray, Sir, that you will be pleased to take such steps with regard to this as will have the desired effect.

I am directed to convey to you, Sir, the thanks of my Association for the grant the Government have sanctioned towards the Hostel which we have been maintaining in Bangalore for the benefit of Mussalman students. We greatly appreciate and value this encouragement as an instance of the recognition by the Government of our efforts in the direction of self-help. In this connection, may I beg, Sir, to bring once more to your kind notice our request for a grant towards the up-keep of

the Free Reading Room that my Association has for several years been maintaining in Bangalore for the benefit of the public, irrespective of caste or creed. This institution has for its foremost object the cultivation of friendly feelings amongst the various communities in the State, and is the only one of its kind in the Province. May we hope that His Highness' Government will be pleased to extend to this institution also the support and patronage that it deserves?

Let me take this opportunity of once again inviting your kind attention to the disadvantages under which Mussalman children are placed as regards education. Since they have not a colloquial knowledge of Kanarese, they are not in a position to avail themselves of the instruction imparted in Anglo-Kanarese Schools. The Hindustani Middle Schools now existing do not meet the requirements of the day, as in these schools no provision is made for the teaching of English. The half dozen Anglo-Hindustani Schools, scattered over the Province, are too few to satisfy the growing needs of the community. In only one of these schools is there a Third Form, while in the remaining five there are no classes higher than the First Form. These schools do not, therefore, confer on the community that measure of educational advantage which one is accustomed to associate with institutions of the kind. Thus, Mussalman children have either to go without higher education, or waste two or three valuable years in taking their course over again in Anglo-Kannada Schools. It is for this reason that we appeal for the establishment of more Anglo-Hindustani Schools in large centres of Mussalman population where they do not already exist, and for the improvement and completion of the existing Anglo-Hindustani Schools.

In conclusion, Sir, we respectfully beg you to convey to His Highness the Maharaja our heartfelt gratitude for the abiding interest that he has been taking in the advancement of our community, and to assure His Highness of our traditional loyalty and affection to his august throne.

I have the honor to remain,

Sir,

Your most obedient servant,

B. A. RAHMON,

Assistant Secretary,

The Central Mahomedan Association of Mysore,

Bangalore.

T. ANANDA ROW, Esq., B.A., C.I.E.,

Dewan of Mysore.

The Representative Members of the Chitaldrug District Board, the Harihar Sub-Taluk and the Harihar Municipality beg with feelings of devotion and respect to state as follows:—

Your selection for the exalted post of the Dewan of this State by His Highness the Maharaja is a sure indication of your innate courage, constancy, wisdom and discrimination.

2. The people of the Chitaldrug District beg to express through you their gratitude to His Highness the Maharaja for the many beneficial measures which have been undertaken during your administration, for the many privileges which have been bestowed on this Assembly by you as President of the Legislative Council in accordance with the desire of His Highness the Maharaja and which have enhanced its prestige, and for the constitution of the Economic Conference, a step indicating wisdom of the highest order, with the idea of improving the economic condition of the people by introducing improvements in respect of Education, Agriculture and Industries.

3. As a result of the encouragement afforded by our Deputy Commissioner, Mr. K. Chandy, at the cattle show held at Harihar on the occasion of the Sri Sangameswaraswami Jatra and at the Industrial and Educational Exhibition held at Chitaldrug, we can confidently assert that the people of this district received much instruction and enlightenment and we are also assured of the great solicitude of the Government for the progress of the people.

4. The Industrial and Agricultural Exhibition kindly ordered by Government to be annually held at Mysore gives, not only to the people of this State but also to outsiders who gather here to witness the Dasara festivities, an opportunity of acquiring information on several interesting subjects and practical experience of various modern appliances and is thus the foundation for the economic progress of the people.

5. We are thankful that Government have sanctioned the estimates for the construction of a reservoir across the Sulekere stream near Devarabelekere in the Harihar Sub-Taluk. The construction of this tank will not only benefit eight villages but, by bringing about 3,000 acres of land under wet cultivation, will also lead to an annual revenue of about Rs. 10,000 for this sub-taluk. As the rains have held off this year we beg that some funds may be sanctioned during the current year for commencing the work which will be the mainstay of the people of these parts and the work arranged to be finished in three or four years.

6. Chitaldrug is the headquarters of this district and is a place of historic interest. Owing to the lack of railway communication and the consequent absence of facilities for the transport of goods and people, the trade has not thriven. To meet the convenience of the public, the District Board, under the encouragement of the Deputy Commissioner, have agreed to the levy of a new cess for the construction of a branch line from Sasalu to Chitaldrug. We beg that the Government may afford us their liberal aid and order the work to be taken up early.

Under your administration, the people are full of happiness and are deeply imbued with public spirit and we constantly pray that Almighty God may bless you with long life, health and strength, so that this state of things may continue for ever.

With profound respects,
We remain, etc.,

SRINIVASA SITHARAM KULKARNI,
Member, Chitaldrug District Board.

Representative, Harihar Sub-Taluk.

To

T. ANANDA ROW, Esq., B.A., C.I.E.,
Dewan of Mysore.

The humble address presented by Kadaba Ramanujaiengar, Representative Member of the Gubbi Taluk, on behalf of the members of the Tumkur District.

The State has been in a prosperous condition ever since you assumed charge of the Dewanship of the State.

In January last, His Highness the Maharaja, accompanied by His Highness the Yuvaraja, was pleased to tour in the Tumkur District and to make, with great kindness, personal enquiries into the welfare of his subjects, and also heard their grievances. In certain other parts of the State you were also pleased to tour and make similar enquiries. These visits have given immense pleasure to the people.

They rejoice all the more in that His Highness the Maharaja and his Government are evincing deep interest in the welfare of the people by the establishment of the Economic Conference for promoting the material prosperity of the State. It is my earnest desire that our educated and enlightened members should co-operate with the Government in carrying out the intentions of His Highness the Maharaja.

As kindly observed by you in your Address last year, the year Sowmya was quite in keeping with its name in as much as it brought a bumper harvest and made the people forget the previous distress and hardship. Despite the grave indications of evil forebodings to the unfortunate people in the current year Virodhikritu (meaning " the doer of evils ") which also tried to prove true to its name, it is a matter for congratulation and a sign of encouragement that there has recently been excellent rainfall throughout the State. This is a sure indication of the blessing of Almighty God, in recognition of the sympathetic love His Highness the Maharaja and yourself evince towards the subjects.

The district of Tumkur has a good number of tanks. Now a days we do not usually get timely rains. Most of the people of this district are able to have the evil effects of a drought mitigated with the help of major tanks which are essential in raising *vaisakhi* crops. Partly owing to the cultivation being undertaken rather late and partly owing to the negligence of the officials concerned, the water in these tanks is wasted at the very commencement of the cultivation and the ryots are consequently put to a great loss. We therefore pray that the officers of the Irrigation Department may be ordered to pay greater attention in the matter of preventing the wastage of water by letting out the same only at fixed intervals during the cultivation season. As agriculture is the most essential item for the economic development of the State, it is but necessary to see to the proper storage of water in our tanks.

Since we were placed in possession of copies of " List of subjects disposed of during the past year," we were enabled to conduct our business with greater facility in this year's Assembly.

I humbly beg that you may be pleased to convey our heartfelt gratitude to His Highness the Maharaja.

I pray in conclusion that the Almighty God may graciously bestow long life, health, wealth and prosperity on His Highness the Maharaja, his family and yourself.

Tumkur District.

DEWAN'S REPLY TO THE ADDRESSES.

Representatives of the Kolar Gold Fields Mining Board, the Mysore Planters' Associations, the Central Mahomedan Association of Bangalore, and the Yedatore and Gubbi Taluks and the Harihar Sub-Taluk.

GENTLEMEN,

I thank you for the addresses which you have just read, and for the appreciative remarks contained in them in regard to the administration of the State during the past year and the various measures adopted by the Government. Allow me also to add a word of acknowledgment of the kind references about me personally.

2. As regards the question of a Maternity Hospital for the Kolar Gold Fields, provision has been made for this in the State budget of the current year and orders have been issued for the necessary steps being taken in the matter. One small condition relating to the cost of up-keep of the institution has been prescribed which the Government are confident the Gold Fields Sanitary Board will not find onerous.

3. The address of the Kolar Gold Fields Mining Board has also referred to two questions relating to certain amendments of the Mines Regulation and the Civil Procedure Code. The Representative of the North Mysore Planters' Association has referred to precautions to be taken in the matter of recruitment of labour in Mysore for other countries. As all these are matters of legislation which affect more interests than one, I shall be glad to discuss them in this Assembly the first thing to-morrow when we meet again.

4. The railway connection between Chitaldrug and Sasalu referred to in the Harihar address is a matter which we may discuss in connection with the important subject of railway development about which I hope to be able to elicit the views of this Assembly at its present session.

5. Various other matters mentioned in the addresses will receive attentive consideration in due course.

6. Before concluding, let me congratulate you on the improvement in the prospects of the season by the recent rains which, I am glad to learn, have been copious and fairly general.

7. Lastly, it will give me great pleasure to convey to His Highness the Maharaja the sentiments of loyalty and gratitude which you have expressed in your addresses.

To

T. ANANDA ROW, ESQ., B.A., C.I.E.,

Dewan to His Highness the
Maharaja of Mysore.

SIR,

We feel greatly rejoiced at the patient hearing you have given us as President of the Assembly during such a long sitting and for the replies given to the representations after mature consideration.

2. We offer our heartfelt thanks to the Legislative Council, to His Highness the Maharaja and his Government for refusing to grant permission to the introduction of the bill for the removal of disabilities arising from change of religion or deprivation of caste in Mysore, as indicated in your Address.

3. It is our earnest prayer and expectation that the bill, amending the Land Revenue Code in some respects so as to give greater facilities to inamdars than exist at present for recovery of rent from their tenants, one among many bills under consideration in addition to those already passed, may be early passed into law.

4. We are greatly pleased to learn of the proposal to lay out the Railway line from Nanjangud *viâ* T.-Narsipur Taluk, Marallisanthe and Chamrajnagar, irrespective of the line to be laid up to the frontier by the India Government and we willingly agree to pay the 3-pie cess on the kandayam.

5. As it is the opinion of majority of the members that religious and moral instruction in schools and colleges is absolutely necessary, it is prayed that the same may be ordered to be continued.

6. As the want of timely rains has made the ryots of this State poor and as there have been representations from a large number of members that the imposition of an income tax would be hard upon them we pray that such a tax may not be imposed.

7. The special items of expenditure on account of the Economic Conference and the visit of our benign ruler, His Highness the Maharaja, with his principal Sirdars and Officers to Delhi in December next for participation in the Imperial Durbar in connection with the Coronation of His Most Gracious Majesty King George V, Emperor of India, are calculated to advance the material prosperity of the State and to enhance the fame of our ruler.

8. We pray that you may be pleased to convey to His Highness the Maharaja on our behalf the assurance that all his subjects are intent upon participating in the local celebration of this auspicious event in a befitting manner as commanded by His Highness and thus testify to our undoubted loyalty and devotion to the person and throne of the King-Emperor.

9. It is prayed that in commemoration of the Coronation Durbar of His Majesty King George V, Emperor of India at Delhi, the Government may be pleased to lay the foundation of the long prayed for bridge over the Cauvery and the Kapila near T.-Narsipur and thus acquire everlasting fame.

10. It is our incessant prayer that God Sri Gunja Narasimha may bestow long life, health and prosperity on His Highness the Maharaja and His Highness the Yuvaraja.

RANGACHAR,
T.-Narsipur Taluk,
Mysore District.
